

Skyway Canada Achieves SOC 2 Type 2 Certification for Skytrax

Powering Project Success with Secure, Smart Digital Solutions

Skyway Canada, a leading provider of access, scaffolding, and industrial services, is proud to announce that Skytrax, its proprietary project management platform, has successfully achieved SOC 2 Type 2 certification.

This certification underscores Skyway Canada's unwavering commitment to security, compliance, and operational excellence across its digital solutions.

The SOC 2 Type 2 certification, developed by the AICPA, is a globally recognized standard that validates the effectiveness of internal controls over time. It confirms that Skytrax meets the highest standards for: Security, Availability, Processing, Integrity, Confidentiality and Privacy

"Congratulations to Skyway Canada for earning their SOC 2 attestation, which is a widely recognized signal of trust and security,"
Steve Simmons, COO of A-LIGN

A-LIGN is the leading provider of high-quality, efficient cybersecurity compliance programs.

Skytrax is Skyway Canada's advanced digital project management platform that transforms the way industrial and scaffolding projects are managed, providing real-time visibility, data-driven decisions and collaborative workflows for safer, faster and more efficient project execution.

"This SOC 2 Type 2 certification is a powerful affirmation of our long-term commitment to data security, compliance and operational integrity,"
John Grassa, President/CEO of Skyway Canada
